

**IN THE UNITED STATES PATENT AND TRADEMARK OFFICE**

In re the Application of

Maurice Gerardus Maria VAN GIEZEN

Application No.: 10/501,989

Examiner: Branden

Filed: April 15, 2004

Group Art Unit: 3781

For: METHOD FOR PRODUCING A CONTAINER FOR A PRESSURIZED FLUID, AND  
CONTAINER OF THIS TYPE

**SECOND REQUEST FOR CORRECTION OF INVENTOR INFORMATION**

Commissioner for Patents  
P.O. Box 1450  
Alexandria, VA 22313-1450

Sir:

Please correct the spelling of the inventor's name in the USPTO database.

As indicated on the previously filed Inventor's Declaration, the correct spelling of the inventor's name is as follows:

Maurice Gerardus Maria Van Giezen

The application was filed without an Application Data Sheet. However, an Application Data Sheet correctly spelling the inventor's name was submitted June 2, 2006 with Applicant's first request for Correction of Inventor Information. Applicant's first Request and ADS are present in the USPTO image file wrapper in PAIR but were apparently overlooked.

Dated: April 7, 2009

Respectfully submitted,

By \_\_/anthony p venturino/ \_\_
